

Manager Scimitar Marine,

It is with great delight that both Cheryl, myself and our immediate family, would like to sincerely congratulate all the staff and management involved in the production and delivery of our Scimitar Power Cat 053.

From our early discussions with Bryan Bradford (and his lovely wife Linda) we found Bryan to not only be very knowledgeable and informative about the power cat's future in general, but his passion and commitment to build what has to be one of the most practical and user friendly boat's (for it's length) ever launched.

With any after sales aspects both Bryan and Gary Brownrigg have more than exceeded what we would consider normal warranty service. They have supported us strongly with any suppliers of equipment fitted to the boat. It is without any reservations that we would recommend your product and company personnel to any prospective customer.

We would welcome any contact with ourselves to discuss our experience both before and after delivery, should you wish to pass our details on.

And yes "WE HAVE BEEN SURPRISED"!!!!

Thanks again Scimitar Marine

Yours sincerely,

Fred and Cheryl Black
